01/04/2018 07z

Weather Synopsis Sunrise: 7:11 am Sunset: 4:29 pm

SYNOPSIS for Massachusetts and Rhode Island coastal waters... Freezing spray will occur on most of the waters today and part of tonight. Strong HIGH PRESSURE over the Great Lakes will build over New England today and tonight then shift off the Mid Atlantic coast Wednesday. A Nor'easter will affect the waters Thursday and Friday. Strong northwest winds trailing the Nor'easter will bring another surge of arctic air and lead to more freezing spray.

Warnings/Tropical

Storm WARNING ... Begins at 04/12:00z ... Expires at 05/03:00z Heavy Freezing Spray WATCH ... Begins at 04/22:00z ... Expires at 06/00:00z Heavy Freezing Spray WARNING ... Begins at 04/18:00z ... Expires at 06/00:00z
